## 2020-2021 SEASON

# KNOW BEFORE YOU GO...OR EAT SNOW!

**SINCE 1977 THOUSANDS HAVE LEARNED FROM US THE EASY WAY!**

Success favors the prepared. We will prepare you for this winter's fun with our unique proven approach to learning on our large treadmill Revolving Carpet Snow Sports Simulator. Continuous personal instruction with no wasted time in lift lines or riding uphill makes our private lessons equal to a full-day group lesson on the snow. Our lessons will meet your needs at any age & ability level.

● **BEGINNERS-QUICKLY LEARN** how to use the equipment, how to stop, control speed, balance, edge control and more in your first lesson on our stationary carpet. Each 25 minute lesson thereafter on our revolving carpet simulates a full day of instruction on the slopes.

**Most beginners take the first 2 lessons together, one right after the other.**

■◆ **INTERMEDIATE & ADVANCED-CARVE SMOOTHER and QUICKER TURNS!**

You will learn efficient movements that become muscle memory habits leading to advanced skills that transfer to the snow. Why skid sideways when you can carve tight, clean turns on any terrain? Each 25 minutes of continuous instruction will develop, improve & refine your skills and give a great workout.
